

MD. JAHIDUL ISLAM PAVEL

SENIOR SOFTWARE ENGINEER

+880 1925-076358 | Sector #10, Uttara, Dhaka-1230 | jahidulku120912@gmail.com | github.com/jahidul1209

PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience designing and shipping scalable full-stack web applications across React, Next.js, Angular, Laravel, Django, and Node.js. Proven track record leading cross-functional teams, architecting microservices and distributed systems, and automating CI/CD pipelines to accelerate delivery. Skilled at translating complex business requirements into clean, maintainable, production-grade code and mentoring engineers to raise team-wide code quality.

CORE COMPETENCIES

Full-Stack Development • System Architecture & Microservices • Redux/State Management • Frontend Testing (Jest, RTL, Cypress) • Team Leadership & Mentoring • CI/CD & DevOps Automation • REST & GraphQL API Design • Agile/Scrum Delivery • AI API Integration • QA & Unit Testing

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Namespace IT, Dhaka

Nov 2022 – Present

- Architected and delivered scalable, high-performance web applications using React, Next.js, Laravel, Python, and Django, supporting growing user bases across multiple production platforms.
- Engineered clean, responsive, and accessible UIs with TypeScript, Tailwind CSS, and Angular Material, improving usability and reducing front-end defects.
- Managed complex application state using Redux and Redux Toolkit, and validated UI behavior with Jest, React Testing Library, and Cypress to ensure release stability.
- Designed and automated CI/CD pipelines with Docker and GitHub Actions, cutting deployment time and increasing release frequency and reliability.
- Architected distributed systems using microservices, REST APIs, and GraphQL to improve scalability, fault isolation, and maintainability.
- Led a cross-functional engineering team through code reviews and mentoring, raising overall code quality and accelerating onboarding of junior developers.

Software Engineer | City IT, Dhaka

Oct 2021 – Sep 2022

- Built responsive, production-ready web applications using React, JavaScript, Bootstrap, and Tailwind CSS.
- Developed and maintained REST APIs with Node.js, Express, and Laravel, backed by MySQL and MongoDB databases.
- Collaborated within Agile sprints, applying Git version control, peer code reviews, and unit testing to maintain high delivery standards.

Junior Software Engineer | Coders Passion, Khulna

Nov 2020 – Oct 2021

- Developed responsive web pages with HTML5, CSS3, JavaScript, and Bootstrap, building a foundation in modern front-end engineering.
- Gained hands-on experience with React and Node.js through real client projects, transitioning from front-end fundamentals to full-stack development.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, TypeScript, Tailwind CSS

Backend: Laravel, Django, Node.js, Python

Data: MySQL, MongoDB, PostgreSQL, Redis

DevOps & Cloud: Docker, Git, CI/CD, GitHub Actions, AWS, Nginx

Architecture: REST APIs, GraphQL, Microservices, Agile

State Management: Redux, Redux Toolkit, Context API

Testing & QA: Jest, React Testing Library, Cypress, Unit Testing, QA Automation

AI Integration: OpenAI API, n8n, Zapier, Selenium, PyAutoGUI

EDUCATION

M.Sc. in Electronics & Communication Engineering December 2020
Khulna University, Khulna | GPA: 3.20 / 4.00

B.Sc. in Electronics & Communication Engineering December 2018
Khulna University, Khulna | GPA: 2.75 / 4.00

Relevant Coursework: Data Structures, Algorithm Design, Database Management Systems, Computer Vision, Software Design Methodology, Operating Systems.

SELECTED PROJECT EXPERIENCE

AI Online Course

Built an AI-powered e-learning platform with React, TypeScript, Material UI, Tailwind CSS, and GraphQL APIs, featuring live coding, quizzes, and generative AI/NLP capabilities.

Real Estate Management Platform

Delivered a responsive real estate platform with Angular, TypeScript, Angular Material, and Tailwind CSS, including property search, advanced filtering, and agent listing management.

YouTube Summary Pro

Built an AI-powered video summarization tool using React, TypeScript, the OpenAI API, Django, and Docker.

Car Guide Info

Developed a full-stack automotive portal with Next.js, Node.js, MySQL, Redis, and Nginx for searchable specs and price comparison.

Windows Estimates

Built a cost-estimation platform with React, Next.js, Django, PostgreSQL, Redis, Selenium, and PyAutoGUI, with full CI/CD automation via GitHub Actions.

UNI-Prep Institute

Enhanced an online education system using Laravel, MySQL, Stripe, and AWS SES to support TESOL/TEFL and business training programs.

Monster Gear E-Shop

Developed an e-commerce platform with React, Node.js, MongoDB, and Redis, featuring secure checkout and product management.
